Professional Experience

Manhattan Associates / Atlanta, GA

January 2020 – Pres.

Software Consultant: WMOS

- Consulted on multiple projects for external clients across a variety of industries, focusing on implementation of Manhattan Warehouse Management for Open Systems (WMOS) software in distribution centers across North America
- Travelled to client sites almost every other week to teach client IT and functional teams the ins-and-outs of knowledge gathering, software configuration, testing, and software issue triage in real-time for critical onsite issues
- Gathered client functional requirements in order to design base software modification specifications to align with client functional flow needs, actively updating/redesigning custom software flows as requirements changed and issues discovered
- Solely designed and configured messaging for external software integration between Manhattan system, external host and ERP systems, and multiple 3rd party Manufacturing Handling Equipment software providers.
- Assisted onsite software go-lives as leading-member of project team, triaging and solving critical issues that have immediate and direct financial impact on the client organizations

OSC Capstone Project / Columbia, SC

Fall 2019

Electrolux Team Member:

- Worked with project team to minimize working capital for Electrolux's North American region by analyzing the current EHP supply base and identifying additional opportunities for the consignment and VMI programs

Kestra Financial / Austin, TX

June – August 2019

Business Process Intern:

- Assisted the VP Business Process Leader in designing, implementing, and improving the operational processes of an industry-leading wealth management broker dealer
- Collaborated alongside department leads in weekly triage meetings with the goal of solving operational and technological issues facing the business, learning the agile methodology
- Resolved problems relating to platform integration and submitted further recommendations for advisor platform improvement

AmWINS Group Benefits Inc. / Irving, TX

June – August 2018

Process Development Intern:

- Consulted with senior management to develop and implement strategies increasing production efficiency across multiple departments for the largest TPA subsidiary of AmWINS Group
- Documented and consolidated data and procedures for employer groups, affinity groups, and insurance carriers to ease process of training new employees in a high-turnover office
